## Guest Lecture by Galaxy Surfactant

On the behalf of Chemical Engineering Students Association (ChESA), we organized a guest lecture on importance of chemical engineering in industries for S.Y, T.Y. students. The chief guest was from renowned company Galaxy Surfactants Pvt Ltd.

The chief guest congratulated all students for their successful completion of examination and moving a step further in their engineering career. The guest of honour started the lecture by telling what is chemical engineering, what is the importance and scope of chemical engineering in near future. The main role of chemical engineers is to design and troubleshoot processes for the production of chemicals, fuels, foods, pharmaceuticals, and biologicals, to name just a few. Chemical engineering companies drive innovation across multiple industries, from energy generation to health care. Chemical engineering companies use the latest technology to turn raw materials into useful products. Depending on the industry, They gave us ideas about selecting project ideas in the final year which will help us in the campus placement. Miss Shrutika Patil and Miss Sanika Shete welcomed the guests. Our Honourable HOD Dr. K.I. Patil felicitated the chief guest. Thanking Speech was given by Miss Shrutika.
