Women Empowerment Cell (WEC)

Report on Old Age Home Visit

As a part of Women Empowerment Cell activity. We are visited to Old Age Home on 27/2/2023. The name of the Old age home is Matoshree Vruddhashram, R K Nagar, Kolhapur. It was a special day for the girl students and ladies faculty.

We left the TKIET college at 11am and we reached there at 12.30pm. Total 28 girl students with 5 faculty members were present in the visit.

Students had a good interaction with the members of the old age home, we spent a good time with them, they shared their memories with us and management of matoshree vruddhashram support us a lot, they explained very well about background of each person and they given the suggestion to students to how to take care of their parents and grandparents and it is very essential too.

We distributed the sweets and regular usage stationary to Management. Total 60 members were living in the Old age home and all are above 60 age and some of are not able to do their own work; they need a physical support from the management.

One of the grannies played a Basuri, it was melody, students were enjoyed a lot and he is also very happy because he got a chance to play and listeners also.

When we are entering the Vrudhhashram, we are very curious to meet all the persons but once we saw their situation, we feel sad about them. Really old people need a more support from their families.

At last we said to everyone to take care of themselves and say goodbye.
